

Blue Angels

Decal Set

for 6mmFlyRC's F/A-18 Super Hornet

The US Navy's Blue Angels was the world's first official military flight demonstration team. Formed in 1946, the Blue Angels have a long and proud history. They have utilised a wide variety of aircraft through the years, including Grumman F6F Hellcats, McDonnell Douglas F-4 Phantom IIs, McDonnell Douglas A-4F Skyhawks, and currently McDonnell Douglas (now Boeing) F/A-18 Hornets.

The Blue Angels employ A/B model Hornets, however this decal set depicts a fictionalised E/F Super Hornet scheme.

*Made exclusively for 6mmFlyRC to be distributed with their kits.
This decal set is not to be modified, sold, or distributed by any other company.
Printing by commercial operators (Kinko's, etc.) is allowed for **personal use only** - mass reproduction is prohibited.*

Below is the 2006 season Blue Angels pilot roster. Use to match the cockpit sill text with appropriate tail numbers and aircraft BuNo's.

It should be noted that Blue Angel 7 is a 2 seater (i.e. an F/A-18D) and is not normally flown as part of routine displays. There are actually 3 separate D model aircraft allocated to the squadron that can be used as BA7, none of which are assigned a dedicated pilot. As such, I have not included BuNo's for these aircraft.

Blue Angel 1
BuNo 161967
Cdr Steve Foley, USN

Blue Angel 2
BuNo 161959
Lt Anthony Walley, USN

Blue Angel 3
BuNo 161948
Lt Tom Winkler, USN

Blue Angel 4
BuNo 161942
Maj Matt Shortal, USMC

Blue Angel 5
BuNo 162897
Lcdr Ted Steelman, USN

Blue Angel 6
BuNo 162437
Lcdr John Allison, USN

On April 22 2007, Blue Angel #6, piloted by Lt. Cmdr. Kevin J. Davis, was involved in a fatal crash at an air show in South Carolina. For those wishing to create tribute aircraft, I have provided the cockpit sill text below. At this time I am uncertain which aircraft Lt. Cmdr. Davis was flying, but evidence points to it being either BuNo 162897 or 162437, most likely the former.

Lcdr Kevin Davis Lcdr Kevin Davis
